

Exploration of Data:-

The screenshot shows the IBM Cognos Analytics interface with a dialog box titled "Add a data source to explore". The dialog has two tabs: "My content" and "Team content". Under "My content", there is a table with the following data:

Name	Type	Last Accessed
DHL Data preparation	Data module	5/30/2022, 7:31 AM
Project.csv	Uploaded file	5/30/2022, 7:27 AM

The dialog also includes a "Cancel" button and an "Add" button. In the background, the "Quick launch" section is visible, showing an "Upload data" option with instructions: "Upload or drag and drop spreadsheets, csv files, and other data sources."

The screenshot shows the IBM Cognos Analytics interface with a data exploration view for "OBJECTID". The view displays a large "290M" value for "OBJECTID". To the left, there are two smaller cards: one for "OBJECTID" showing "290M" and another for "CITY" showing "3.66K". Below these cards is a "Data relationships" section with a diagram showing a central node connected to three other nodes. On the right, a "Details" panel shows the text: "The total number of results for OBJECTID is 24,072."
